

## **Accuplacer Virtual Testing**

If you are not able to come to campus to take the ACCUPLACER placement exam, we have an option for you! You may take your assessment in the privacy of your home using Accuplacer's remote proctoring service.

You will need a computer, a web cam and a high speed Internet connection. No additional software is required. You will pay the \$20 Accuplacer testing fee and there is an additional \$25 fee for this service which you will pay when you register for your exam with the virtual service provider.

If you would like this option, please go to [https://pencol.formstack.com/forms/virtual\\_placement\\_test\\_request](https://pencol.formstack.com/forms/virtual_placement_test_request) to begin the process. After you complete the form, you will receive further instructions via the email address you provide.
